### Comments:

Azam has experience in developing for iOS and it shows in his lessons. He did a good job with his presentations; he had a great pace and good transitions. Be sure to explain *why* your students want to use the features you are presenting. Analogies will help explain some of the more difficult concepts and make them relevant to the learner. Overall, very good job presenting the material.

### Recommendations:

I recommend Azam Alrashed to be certified as an **Apple Certified Trainer** for **App Development with Swift**.
